AL IKHSAN FAIQ

UI/UX Designer · AI-Native Workflow · Frontend Developer

faiqsc@gmail.com · 087899677415 · Palembang, Indonesia · LinkedIn · Portfolio · GitHub

PROFILE

Information Systems graduate (GPA 3.96, Cum Laude) with 2+ years of end-to-end product design experience across enterprise, health, education, property, and transportation domains. Skilled across the full UX cycle: user interviews, Maze usability testing, information architecture, design systems, and high-fidelity Figma prototyping. Uses AI-native tools (Antigravity AI, Claude API, Gemini, GPT, v0) to speed up prototyping and design-to-code handoff. Achieved 3rd place at a national UI/UX competition and published two peer-reviewed papers.

SKILLS

UX Research & Design: User Interviews, Surveys, Usability Testing (Maze), Design Thinking, Information Architecture, User Personas, Task Flow Mapping, Design Systems, Wireframing, High-Fidelity Prototyping, Micro-interaction, Conversational UI / Chatbot Flow, System Usability Scale (SUS) Analytics

AI-Native Workflow: Antigravity AI (agentic, custom rules), Claude API, Gemini API, OpenAI GPT, v0 by Vercel, Cursor, Google Stitch

Design Tools: Figma, Canva, Adobe Photoshop, Print Layout Systems (@media print)

Development: TypeScript, React, Next.js, Vite, Tailwind CSS, HTML/CSS/JS, Firebase, Supabase, Vercel, Python, SQL, CodeIgniter 3, PHP, Express.js

WORK EXPERIENCE

Frontend Developer – RS UMMI (Electronic Medical Record System) *Aug 2026 – Present*
Contract / Remote · Bogor, Indonesia

- Designed and built enterprise EMR clinical forms (Discharge Planning RM 16.F, Inpatient Obstetric Initial Assessment, Medication Reconciliation) in CodeIgniter 3 and Bootstrap, digitizing physical hospital workflows.
- Engineered a custom @media print layout engine with side-by-side signature positioning, page-break control, and digital signature canvas rendering, achieving 0% printing layout errors.
- Authored frontend design system guidelines (AGENTS.md), standardizing form components, typography, and responsive layouts across clinical modules.

UI/UX Designer Intern – PT Bukit Asam Tbk (State-Owned Energy) *Jun – Jul 2024*
TI / EIS Department · Tanjung Enim, Indonesia

- Delivered 2 end-to-end Figma prototypes in 6 weeks for engineering handoff (CISEA sub-application and APLB LB3 Waste Management system), translating operational workflows into interaction flows validated with engineering and operations stakeholders.

Freelance UI/UX Designer & Web Developer – Remote / Palembang *2024 – Present*

- Passed the UI/UX hiring test for an international English education company in Yogyakarta, delivering a full platform redesign with improved content hierarchy and responsive navigation.
- Served as sole designer commissioned for PERMAHI National Congress X (Palembang, Oct 2025), building the information architecture, visual branding, and responsive layout from scratch.
- Designed a real estate landing page prototype for the Palembang rental property market.

Property Manager & Designer – Kos Nyaman · Self-initiated *Sep 2024 – Present*
Palembang, Indonesia

- Built and deployed a responsive property rental website using Antigravity AI with custom agent rules on a TypeScript / React / Vite stack, live on Vercel (kos-nyaman.vercel.app).
- Building a property management dashboard integrating Firebase, Supabase, and multiple AI APIs (Gemini, Claude, GPT) for occupancy analytics, AI pricing suggestions, and a tenant chatbot.

Community Service Lead, AI-Based Website Design Training – LPPM, Universitas Sriwijaya *Aug – Oct 2025*

- Initiated and led a training program that enabled teacher participants to design and build functional educational web interfaces using AI-assisted tools.

Lab Assistant, Computer Networking Lab – Universitas Sriwijaya *Aug 2024 – Mar 2025*

- Delivered networking instruction (OSI model, TCP/IP, subnetting, VLANs) and supervised Cisco Packet Tracer simulations and router/switch configuration for undergraduate students.

SELECTED PROJECTS

Clairo – Teacher-in-the-Loop AI LMS · Flagship AI Product *May 2026 – Present*
React 19 · TypeScript · Express.js · Cloud Firestore · Google Gemini API · Tailwind CSS v4

- Architected a Teacher-in-the-Loop AI learning platform for Indonesia's Kurikulum Merdeka, enforcing Firestore security rules that require teacher review before AI content reaches students.
- Built a 14-function Gemini AI service layer covering 3-tier content differentiation, rubric-based essay co-grading with plagiarism scoring, RPP lesson plan generation, and parent WhatsApp updates.
- Engineered a secure Express proxy with Low-Bandwidth Mode for rural networks, an Edpuzzle-style video studio with skip-prevention logic, and SVG diagram rendering for STEM quizzes.
- Integrated a SUS survey engine and achieved an 86/100 usability score in HCI testing.

Yappy – Language Learning App · 3rd Place, SI FEST Unsri 2024 (National) ↗ bit.ly/YappyPPT *Oct – Nov 2024*
Figma · Design System · User Research · 2-round Maze Usability Testing

- Designed a language learning app with interactive lessons, video content, chatbot interaction, and private tutoring booking, achieving 3rd place at a national UI/UX competition.
- Ran 2 rounds of Maze usability testing; iterations cut task completion time by 44 seconds, reduced misclicks by 67%, and raised the SUS score from 70 to 82 (Good to Excellent).

Neurofit – Fitness App · GDGoC Final Project ↗ bit.ly/NeurofitPPT *Sep – Nov 2025*
Figma · Design System · User Research · Maze Usability Testing

- Led the full design cycle from user research through high-fidelity prototyping and Maze testing; interviews surfaced navigation friction, resulting in a restructured task flow and simplified activity tracking, confirmed in testing.

FitMart – E-Commerce & Workout App · Competition Assignment ↗ bit.ly/Prototype-FitMart *Oct – Nov 2025*
Figma · Component-Based UI · Maze Usability Testing

- Designed an integrated e-commerce and fitness app prototype from problem framing to validated high-fidelity output; Maze testing confirmed task flow clarity with no critical navigation failures.

PrimaPlus – Health Consultant App · GDGoC Project ↗ bit.ly/PrimaPLus *Jul – Aug 2025*
Figma · User Personas · Task Flow · High-Fidelity Prototype

- Designed a digital health consultation platform; user research shaped the information architecture and task flows and surfaced the need for clearer specialist matching, resolved in the final prototype.

StellarTech – Space Exploration Web · Finalist, IFFEST Unsri 2024 ↗ bit.ly/StellarTech *Apr – May 2024*
React JS · Tailwind CSS · Figma · Responsive Design

- Designed and built a fully responsive infographic website solo, from Figma to deployed code, placing as finalist and completing the only entry with a full design-to-implementation workflow.

ADDITIONAL EXPERIENCE

- **UI/UX Member, Google Developer Group on Campus (GDGoC) Unsri** · Jan 2025 – Nov 2025. Worked on design systems, Figma prototyping, and usability testing; led design for the InspireHER 2025 event.
- **Founder & Creative Lead, Darezz Studio** · Jan 2024 – Apr 2025. Built complete brand identity systems (logo, typography, packaging) and led digital marketing and creative direction.

EDUCATION

S1 Information Systems – Universitas Sriwijaya *Aug 2022 – Feb 2026*
GPA 3.96 / 4.00 · Cum Laude · Completed in 3.5 years · Relevant courses: HCI, Software Design, Systems Analysis

AWARDS & CERTIFICATIONS

3rd Place UI/UX Design (SI FEST Unsri 2024, National) · Finalist Web Code Design (IFFEST Unsri 2024) · 1st Place Video Challenge (PKKMB x Mediasi 2024) · IELTS Overall 6.5 (L:7.5, R:6, W:6, S:6.5) · EF SET 72/100 (C2 Proficient) · MTCNA MikroTik Certified
